Curriculum Vitae of Basetsana Nteta

I am a BSc (Hons) Computer Science graduate from UWC, with a passion for technology and continuous learning. I am proficient in Java, Python, C#, HTML, CSS and JavaScript. I like to partake in hackathons to stay abreast with industry trends, sharpen my technical abilities, and challenge myself. I have worked as a tutor and an intern, where I honed interpersonal skills such as leadership, mentorship, communication and teamwork.

Responsibilities:

- Mentored and supported interns throughout the virtual internship program, providing guidance and insights
- Co-hosted virtual, informal chats to address questions, offer advice and create a supportive community
- Collaborated with the QYF team to co-facilitate interactive workshops and training sessions
- Shared practical insights and personal experiences to enrich interns' learning journey
- Identified and escalated concerns to the QYF team to ensure a seamless program experience
- Monitored intern progress and escalated concerns to the QYF team as needed

Period: January 2025 – February 2025

4. Key Competencies

- Technical Skills:
  - Programming: Python, Java, C#, JavaScript, Lua, and SQL.
  - Web Development: HTML, CSS.
  - Tools and Platforms: Unity, Microsoft Office
  - Data and Analysis: Exposure to data framing, exploration, interpretation, modelling, and visualization through QuantifyYourFuture Internship

- Project and Problem-Solving Skills:
  - Task planning, workflow organization, and project execution
  - Tackling real-world technical challenges and team-based development through coursework, hackathons and virtual internships
  - Content management and digital communication (social media coordination)
  - Strong critical thinking and debugging ability

- Soft skills:
  - Clear communication and presentation skills
  - Leadership and mentoring (Tutor & QYF Mentor)
  - Effective teamwork, adaptability, time management, and organizational skills

5. Achievements

Girlcode Annual Hackathon

GirlCode is a registered NPO (158-642) aimed at empowering young girls and women through technology. Since 2022 this is an event that I have taken part in and between 2022 and 2023, I have learned a lot from it. I can proudly list it as one of my achievements.

SANREN Cyber Security Competition 2023

SANREN hosts an annual Cyber Security Competition for university students to compete in. In the year 2023, my second year at the University of the Western Cape, I participated in the first round of the competition. My team and I unfortunately could not progress to the following round of competitions, but the experience was very educational and an achievement I am proud of.

Standard Bank Unihack 2025

Standard Bank UniHack is an annual competition hosted by Standard Bank to promote innovation and skills development among university students in South Africa. In 2025, during my time at the University of the Western Cape, I had the privilege of participating in this prestigious event. Although my team and I did not make into the top 3, the experience was invaluable and is an achievement I take great pride in. It offered a platform to showcase our problem-solving skills and creativity while contributing to the development of the ICT sector.
